iwood Newsletter NR 2

Dear Friends of iwood

The year 2 of iwood, the Swiss start-up company around a new and most innovative engineered wood material has started as well as the last one has ended.

In February iwood was awarded with the **Swiss Technology Award 2003**. The price includes an invitation to be present at the **Hanover Faire 2003** from **April 7th to 12th (Hall 18 EG D05)** as a part of the exhibition "Technologiestandort Schweiz". Other faires where iwood or examples of an iwood-board can be visited are the **Interzum Köln from May 23rd to 27th (Hall 13.1, special exhibition "green innovations")** and the **LIGNA in Hannover between May 26th and 30th**. At LIGNA we will be part of the show of our research partner SH Holz Biel. More about the events you find under www.iwood.ch.

March 25th iwood has received the **ZKB Pionierpreis Technopark[®] 2003** and a check worth 31'418.15 CHF. We were special pleased by the decision of the jury since our competitors presented excellent High Tech projects. See www.technopark.ch for more information.

And we are also pleased that first companies, **n'H Akustik+Design AG (Topakustik)** and **BSZ Stiftung** have joined partnerships with iwood. This companies will help us to improve our products to the demand of the customer and they bring the market into our research project. More about the partnerships you will find on www.iwood.ch. More partners are welcome. Bring your company in contact with the latest developments. Send us an email to info@iwood.ch and ask for the conditions.

We from iwood hope of course, that iwood will on its further way that successful and we would appreciate if we could invite you to the opening of our **Pilot plant during winter 2003/2004**. More about us you can find on **www.iwood.ch**, our homepage, which we **continuously update**.

With kind regards

Christoph Affentranger
